PROFILE

Experienced front-end developer specialising in building single-page applications (SPAs) using React.js, Redux Toolkit, TypeScript, Styled Components and MUI. Experienced in creating responsive user interfaces (UIs), dynamic forms, state management, and backend integration with Node.js, Express.js, and MongoDB.

Proficient in HTML5, CSS/SCSS, JavaScript/TypeScript and version control systems such as Git, GitHub and GitLab. I am experienced with Google Tag Manager and Google Analytics 4.

Focused on delivering clean, intuitive, and maintainable UI solutions.

WORK EXPERIENCE

Binotel LLC

2021 - 2024

Technical Support engineer

- I started my journey at Binotel LLC as a Technical Support Engineer in the CallTracking department. In this role, I was responsible for configuring call tracking services, assisting clients with technical setups, and resolving a wide range of technical issues related to website integrations, analytics tools, and call routing.
- This position helped me build a strong technical foundation, develop problem-solving skills, and learn how to manage time effectively in a fast-paced environment. It also gave me a deep understanding of the product and customer needs, which later became invaluable when I moved into a supervisory role.

Binotel LLC

2024 - PRESENT

Technical Team Lead

- I have been working at Binotel LCC for over 4 years, advancing from a Technical Support Engineer to a Supervisor of the CallTracking department. I have solid experience with HTML, JavaScript, CSS, and selectors (XPath), as well as in configuring and using analytics services, including Google Tag Manager. As a supervisor, I successfully manage a team of 3-4 people, handle reporting, streamline processes, and ensure effective communication within the team.
- I possess strong organizational skills, am result-oriented, and continuously improve workflows to enhance department efficiency. My combination of technical expertise and leadership qualities allows me to find solutions even for complex challenges, ensuring quality and timely delivery. I am seeking an opportunity to apply my experience in a dynamic company where I can grow professionally and contribute to the success of the team and its projects.
